SUBJECT

REVENUE COLLECTIONS TO END OF MARCH 1924

(First Nine months of the current year.)

LAND REVENUE.-

The position to end of January, February, and March in the current and previous years is shown below:-

Year.	To end of January.	To end of February.	To end of March.
1922-23 ..	11,13	33,71	60,36
1923-24 ..	9,76	30,07	54,64
Falling off	1,37	3,64	5,72

It will be seen that compared with the previous year, the collections in the current year are progressively on the decline. The deterioration to end of January may have been due to less arrears to be collected this year but the decline in the khist months of February and March is perceptible and it is increasing. I understand from the Revenue Secretary that this feature of the Revenue collections has already been noticed and instructions have been issued to the Revenue Commissioner and Deputy Commissioners under the orders of the Dewan for improving the collections in the remaining months of the current year.

SANDAL OIL RECEIPTS.-

The working expenses for the month

NOTE—Contn. sheet.

Serial No.

March have not yet been adjusted but judged by gross receipts, the position is satisfactory as the realisations to end of March in the current year amount to 16.95 as against distinctly lower levels in the previous six years excepting the only one year 1919-20 in which it was as high as 26.32.

FOREST REVENUE other than Sandal Oil.-

4/ To end of March as much as 10.11 has been realised and this compares favourably with the collections in the previous five years. The improvement in the month of March is apparently due to the collection of the instalment on account of Minor Forest Produce.

EXCISE.

5/ There is a decline of about 3 lakhs in this item of revenue compared with the previous year and this falling off is persisting from January as the decline is about 3 lakhs up to end of the seventh, eighth and ninth months

INCOME-TAX.

6/ Super-tax has been clubbed with the Income-tax and so comparison with the previous figures has been rendered difficult. The Comptroller will be requested to separate the two taxes and report them separately hereafter.

STAMPS. -

7) The collection to end of March is 14 lakhs which is about ¾ lakh better than in the immediately preceding year. The position of this item of revenue so far is satisfactory

MINING REVENUE. -

8) There is a decline of about half a lakh to end of March and this is due to the lower prices of gold and the falling off is observable in the collection of every month from the beginning of the year.

ELECTRICAL REVENUE. -

9) The realisation to end of March is 32.70 which is about 1¾ lakhs better than the collection in the immediately preceding year. The position of this revenue is also satisfactory.
